This Paper

Commend Them on Ground of Cleanliness and Sanitation.

The use of metal and concrete in construction of all kinds of buildgs is gaining rapidly in popularity. see it not only in our houses, but the modern dairy barns and poultry ints. This is brought about on ounds of economy and efficiency; tal is stronger, wears longer, ocpies less space, is immune to fire d inimical to insect life and dis-. For the latter reason its use peals strongly to the poultry breed-

Metal perches, nests, and even uses have much to commend them grounds of cleanliness and good nitation. Especially is this true of tal nests, a row of which is shown the illustration. Of all contrivanthe wooden box has proved itself home of lice and mites; its crevs and cracks are the delight of se pestiferious enemies of fowl life. be sure the nesting material can changed and burned, the box rayed or fumigated, but in spite of precaution a few stray specimens Il escape in some crack or crevice the wood. With the metal

Combination Metal Nests

is certainly not possible. The chance of infection is from the itself to the nesting material, hich is of minor consequence, unless lousy hen happens to precede one in occupying the nest.

Metal nests come in several patns. One style is for hanging on wall, from which it can be easily oved and cleaned. Others are de in combination as shown in the istration, also in singles and in airs and trios. For shipping they e knocked down; their construction such that no rivets or solder is reired to set them up ready for use Galvanized iron coops have why metal houses will not prove destrabla. Where

ELP IN POULTRY CHOLERA

portant Experiments With Serum Specimens Arrive Dead.

Can poultry cholera be prevented injecting serum into the disease wis? The serum method of treatent prevents cholers in hogs, and if ie case is in its first stages, will ire ft. But will serum work equally ell in combating the disease when ontracted by fowls? This is what F. Jacoby, of the poultry department, nd W. K. Stouder, of the veterinary department of the Kansas State Agri-cultural college, are eager to know. Of course they will use a different kind of serum, suited to the differences between cholera in hogs and in poultry.

Inability to get diseased fowls to operate upon is retarding the progress of experiments now being conducted to investigate this question Mr. Jacoby and Doctor Stouder wish to communicate with owners of flocks where the disease has started. The only fowls received up to the present died in transit. Few fowls live more than three days after contracting the disease. If they are not started to the college in the early stages of the disease they are likely to arrive in a worthless condition for the expert-

Grow Laying Hens. If you want hens that will lay, now is the time to begin to grow them. Secure eggs of some of the standard laying breeds and raise some chicks as early as possible this spring. Next fall they will be ready for business. Do not expect heavy laying from nonlaying breeds.

All advertisements intended for the Courier MUST be in not later than noon, Wednesday. Our patrons will please govern themselves accordingly.

Home Comfort Assured by Using Cole's Original Hot Blast

It means comfort and health for you and your family to have comfortable living rooms— We want to sell you one of these truly marvelous heaters—

We know it will give you more home comfort for the money you spend for fue. tnan you have ever had before-

The same comfort you would get from the most costly Hot Water or Steam Heating Plant you could buy. And besides—Cole's Hot Blast Heater is better because you can regulate it perfectly—

Cole's Hot Blast Heater gives a steady even heat day and night using for fuel the cheapest grades of soft coal. It is as clean as the highest priced Hard Coal Heater and costs you less than half the money—costs less than half to operate throughout the winter because your fuel bill will be cut in two. Surely this is the Heater you want and will have this winter.

This Original Hot Blast Stove has patented features which insure an everlasting air-tight and gas-tight construction. No leaky stove will hold fire—remember that.

Cole's Patented Hot Blast Draft insures perfect burning of the gases in coal which makes this heater the greatest fuel saver ever known. Soft coal is half gas and is wasted with other stoves.

We are authorized by the Cole Manufacturing Co. to sell this heater on the most rigid guarantee ever made by any stove manufacturer. The Remarkable Guarantee is-

"1-A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.

"2-That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same size fire pot. "3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.

That the stove will hold fire with soft coal from Saturday night until

- "5-A uniform heat day and night, with soft coal, hard coal or lignite. 6-That every stove will remain absolutely air-tight as long as used. "7-That the feed-door is and will remain smoke and dust-proof.
- "8-That the Anti-Puffing Draft will prevent puffing. "All we ask is that the stove shall be operated according to directions and connected with a good flue. "(Signed) COLE MANUFACTURING CO., Not Inc."

 'Makers of the Original Patented Hot Blast Stove.)

Think what this economy of fuel means to you. Think of the comfort—no kindling or rebuilding of the fire in the morning. Simply open the draft. You live in an even temperature which means health to your family. Uneven temperature means colds or worse.

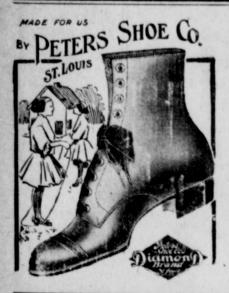

Burns any kind of fuel—Soft Coal, Hard Coal, Slack, Lignite or Wood. Over 60,000 of Cole's Hot Blast Heaters sold during the year of 1909. Come in at once and make your selection.

All Sizes--**Price is \$12.00** and Upward According to Size and Finish 106C-15

HENDRIX COLT SHOW.

J. C. Hendrix will give premiums on the best colts sired by his stock on Saturday, Sept. 23. The calts will be shown on Jackson st., in Hickman, about 2:30 o'clock. First prem ium \$10; second, \$5. Don't forget the time and place.

The monster towboat, Sprague, passed Hickman Tuesday night. She sank twelve boats and one barge of coal at Sisters Island near Paducah. This was the cause of the half a dozen tows being tied up above Sisers Monday but the channel has been cleard and the tows are coming down. 'The sunken boats and one barge contained over 12,000 tons of coal and will probably be a total loss. The tow was made up ten boats wide barges. The tow was grounded at Sisters and some of the boats sank in the channel. The Gleaner of the West Kentucky Coal Company with behind the Sprague when she grounded her tow. The Gleaner managed to pass without accident.

Farm and Factory Share Export Gain

manufacturer shared about equaliy in the remarkable growth in exports which characterized the fiscal year recently ended. The total increase was \$304,000,000 when compared with the immediately preceding year, being a larger gain than ever before shown in a single year of our export trade.

Of this gain manufacturers as a whole supplied \$140,000,000; cotton about \$135,000,000; meats and dairy products about \$19,000,000; corn, \$10,-000,000; food animals, \$1,500,000; flour, about \$2,500,000, while wheat shows a marked decline.

Cotton is king in the exports of products of agriculture, the value exported during the year being \$585,000,-000 in 1910, by far the largest total ever shown in the cotton export about \$5,000,000.

trade, against \$145,000,000 in 1910 and \$481,000,000 in 1907, the former high record year.

Meat and dairy products show a total of about \$150,000,00, against \$131,000,000 last year, but materially less than in certain earlier years, in which the total ranged as high as \$202,000,000 in 1907 and \$211,000,000 in

Food animals show a total of \$12. 000,000, against a little less than \$12, 000,000 last year, but much below the figures of earlier years, when the total figures of food animals exceeded \$43,-000,000 in the high record of 1906.

Flour amounted to about \$50,000,000 in value, against \$47,500,000 last year, but much less than in certain earlier years, the high record in flour exports in 1893 showing a total of \$78,500,000

In manufactures the increase in the group "manufactures ready for con sumption" is about \$100,000,000, and in the group "manufactures for further use in manufacturing" the increase is \$40,000,000. The increase in manufactures is apparent in a large number of articles. Agricultural implements, as a whole, show an increase o

ing your home furnishings from us, but there is safety as Corporations Find Tax Law Is Strict well. We sell good furniture for just about the same

WHILE the treasury department is not disposed to be unduly harsh with those corporations which have failed to file their returns within the specified time under the corporation tax law, provided the failure has not been due to a deliberate attempt to evade the statute, at the same time it is not given much leeway under the terms of the act.

That is why several bills have been introduced in congress for the purpose by the commissioner, because the law of relieving delinquent corporations specifically prescribes it. But in addifrom the penalties of the law for the current year. Just why there should be so many delinquents it is hard to understand, because this is the second year that the law has been in force, and the government officials think corporations and their officers ought to be familiar with its provisions by this The commissioner of internal rev-

enue, who collects the corporation tax, is busy sending out letters to corporations and persons who write to learn how they can be relieved of the penalties imposed by the law. He does not give them much encouragement, for the statute is stringent.

When a corporation neglects to make its return March 1, 50 per cent. be relieved of the fine.

is added automatically to the amount of the tax. This cannot be remitted tion to this increase of the tax a corporation may also be fined for its neglect. This fine is in the discretion of he commissioner, and the law says it shall not be less than \$1,000 or more than \$10,000. Cases of fraud are punished more severely. The tax is doubled, and in addition to that the officer of a corporation who makes a false return may be convicted of a misdemeanor, fined \$1,000 and sent to tail for a year.

There are thousands of delinquent corporations in most internal revenue districts. Through their representatives they are besieging the treasury department for lenient treatment. The best that most of them expect is to

Spy Charge Arouses Army Officials

time in many years has a case of an alleged spy in the army. Capt. James Watson, the army recruiting officer at Indianapolis, Ind., has informed the department that he holds affidavits charging Private George Peters with being an Austrian secret

One of the papers in the possession of Captain Watson is an affidavit of Miss Clara A. Dyer. She said Peters was stationed at Fort Totten, N. Y., in the 135th company, Coast artillery corps, and that he was an Austrian spy sent to the United States to obtain the secret of manufacturing the powerful explosive used by the United States government. Miss Dyer asserted she had become engaged to Peters. The girl turned over a number plans. Peters' real name, she said, Dunn

vas Count Windisch-Graetz and home is at Prague, Bohemia.

The country probably will keep tranquil in the face of the report that Austrian spy has been examinin its defenses and offenses for five years as a private in the army ranks. He is a fine specimen of the stable-mind his labors into the keeping of

It cannot be conceived what Austria wants with maps of our forts and with rosters of our regiments.

It is suggested that the spy in the ranks, whose "steady company" gave him away, wants to learn how to make dunnite, our most powerful explosive Tyler. Ky. He has been serving at posts where they neither make dunnite nor use it. Moreover, we have a well-defined thought that the inventor of the deadly stuff, Colonel Beverly W. Dunn, has safeguarded his secret. Colonel Dung is a veteran of thirty-two years' active service. He has thought enough of the country and the army to give two sons into their keeping. Private George Peters, or Prince Windisch-Graetz, whichever he is, has some of letters, in which he told of his thing to do when he tries to unde

C. H. SMITH

HICKMAN, KENTUCKY

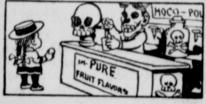

THE soda water fountain is as great a menace to femininity, in many cases, as the barroom to masculinity, according to Dr. Harvey W. Wiley, the government pure food and drug expert. Let it be understood that Dr. Wiley is not defending the barroom. While not a prohibitionist, he is "ferninst" strong drink, and has said so officially numerous times. Dr. Wiley is not opposed to soda

water in itself, nor to the gayly bedecked fountains from which it issues. He is strongly opposed to dangerous ingredients which are hidden in the foam-covered glasses which are handed out to young and old alike.

"I am a friend of the soda water man," Dr. Wiley said. "The honest soda water man who sells real soda water is a godsend today. I would not part with him for the world. It's man who sells injurious chemicals and habit-producing drugs in soda water glasses to whom I am opposed and whom I would like to see driven out of business.

"To be pure and healthy, soda water should contain three ingredientspure fruit flavors, pure carbonated water and sugar, not saccharin or some other injurious sweetening. To sell flavors that are made of chemi-

cals instead of fruits is criminal. begin with, what is soda water? First of all, soda water does not and is not supposed to contain any soda. The name is a misnomer. A great deal of the stuff that is sold under the name of soda water contains saccharin instead of sugar. That should be prohibited by law. Saccharin is injurious to every one and affects children seriously. Much of the carbonated water that is mixed with the flavors contains lead. Such a mixture should be prohibited by law. A great percentage of the flavor is made of various kinds of chemicals, all of which are more or less injurious.

"Caffeine, which is being used generally by many unscrupulous soft drink dispensers, should be driven from the market by law. Its effects, especially on young people, compares with the effect of cocaine and mor

Will Probably Go Through Ballard County.

NEW ELECTRIC R. R.

Not only will an electric interur ban line be started from Paducah towards Mayfield, Union City, Clinton and Hickman, but a belt line will be run from near Milburn probably to Lovelaceville, thence to Blandville, to Wickliffe, and from Wickliffe back to Paducah, according to the state ment by an official of the Kentucky Southwestern Railway, Electric Light and Power Company Saturday. The exact route that this belt line will take has not been decided, but the more thickly populated section of

lie near the projected routes are pouring into the office of the company asking the officials of the interurban merchants, professional men or offi cal of commercial clubs with a view to include their towns. Whether the line will take a more direct line to Clinton and Columbus depends upon the reports of the engineers and the estimates that they will make of the cost of the several routes. The main count, however, is the liveliness and progressiveness of the communities the road will pass.

It was definately stated by an ofbooks of the sheriff's office, three of fical of the company that the road Graves county's ex-officials are due would be equipped for heavy freight the county money in the following tric locomotives. Bridges will be constructed across the Tennessee and Cumberland rivers so that fast freight, ner & Marx. structed across the Tennessee and express and passenges service can be given to and from all points on the line, and through freights can be gent R. N. Stanfield and County At- handle d through the terminal con torney Holifield to proceed at once to collect these respective amounts

It was official stated that at least from the three ex-officers, or from would be brought into this neighbor hood for the construction and equipt ment of this project. What this means to business men and local pros perity, is not hard to guess, and Hickman's business men should help push the good work along.

INSECTS tractive to s

Little Grosbeaks Wage Unceas-Ing War on Injurious Bugs.

Investigations Prove That This Breed of Birds Destroy Many Pests and Are invaluable Friend of the Farmer.

(By W. T. M'ATEE, Assistant, Biological Survey, United State Department of Survey, Unit

The grosbeaks take their name from their big beaks, and they are great eaters of insects and slugs which injure plants. Some objection has been made to them on the score that they eat seed grain, but where, it is drilled this objection does not amount to much, as present-day planters cover the grain effectually.

With grain under other conditions the damage done by the grosbeaks is much more than repaid by the insects they kill.

The rose-breasted and black-headed grosbeaks eat peas, and the latter eat green beans, also. Experience shows that a scarecrow suffices to ward off the rose-breast, but the black-head appears less easily intimidated. In localities where the birds are abundant bird netting used as a cover is ef-

Planting wild fruit is important for the purpose of attracting birds. The hollies, jumper, bayberry, Virginia high, says a writer in an exchange; creeper, blueberries, blackberries and then begin with the wheel cultivator, a farm should be removed, since they at least once a week until the plants from enemies and to furnish nesting the plant shields and cultivate again sites. Where thickets are lacking, and you will not injure your corn, but the growth of artificial ones should be will bury the weeds, and by so doing

tractive to grosbeaks, particularly to

Standing grain may be insured against the attacks of small birds by planting a few rows of millet on the edges of the field. Millet is a prime favorite with all grain-eating birds and should be sown so as to ripen at the time the grain is exposed to dam-

A permanent drinking and bathing place on the farm and in the garden is to be numbered among the most potent attractions for birds, and with a little ingenuity one can be prepared in almost any locality. Winter feeding serves to attract the cardinal, which relishes corn, sunflower and other seed, and take kindly even to table scraps. Unquestionably, if the number of birds is to be materially increased, measures must be taken to dispose of roving cats. Grosbeaks are usually able to defend themselves and their nests against the English sparrow, but for the sake of other small birds the numbers of this foreign pest should be materially reduced

Present indications prove that the services of grosbeaks in destroying insect pests are invaluable. Each kind pays special attention to certain pests winch if unchecked would cause enormous losses. Few of our birds are to be credited with more good and with fewer evil deeds than the grosbeaks, and none more clearly deserve pro tection by the practical farmer.

Corn Culture.

In the cultivation of corn, after planting, I use the weeder until Dogwoods, the plants are two or three inches wild grapes. Not all the thickets on using the plant shields, and cultivate serve to harbor birds, to protect them | are about a foot high, then remove encouraged, for they are very at there is no hand work

"TESS and TED" School Shoes

The "Star Brand" Shoe people of St. Louis, already world famous because of their rapid growth, have recently placed on the market a new line of School Shoes, which is known as "Tess and Ted" School Shoes, the word being derived from the word "tested," meaning that these shoes were thoroughly tested before being placed on the market.

The Roberts, Johnson & Rand Shoe Co. have never been known to do anything by halves, and they have taken special pains with this new line of shoes for children.

Many years ago they realized that it was a crime to cripple children's feet with ill-fitting clumsy shoes. So they employed experts on children's shoemaking from all over the country.

That was several years ago. All these years these experts in shoemaking have been experimenting to get the lasts just right, to find methods of manufacturing which would make the shoes lighter, yet stronger, to find ways of making shoes cheaper, to get the right kinds of leather; in short, the idea was to make a School Shoe that is as near perfection as leather shoes can be made.

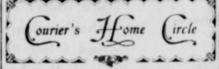

Recently they decided that they had the right combination and began to manufacture and sell

"TESS and TED School Shoes

Soon this will be the most talked of line of shoes in the world, because it is newer and better,

We've put in a complete stock and have the sole agency in our town. Better come and look at them, even if you do not buy now. You can easily see where they differ from other school shoes.

SMITH & AMBERG -

Love is the great homemaker, that makes even drudgery of housekeeping a pleasure, and home life a fore taste of the bliss of heaven. One cannot get too much love into one's homemaking, but easily too little.

There is no such thing as man's rights and woman's rights separate and distinct from each other. Woman's rights are simply human rights. The sexes belong to each other; what enefits one helps the other; what elevates either uplifts both. Man is the outdoor and weman the indoor partner in the firm of humanity.

If you want to be happy forget and if possible do something for someone else. Read to an old lady; send a bunch of flowers to a sick child; say a kind word to a poor diswhimper of another.

Fathers now basking in the sunset of life may not readily recall all their early experiences in life, their struggles and triumphs of their childed their sisters build are photoraphnever fade away. The golden light necessary comforts for the family ness of this picture. One will never whatever he may earn by trade or broken cart, the sled and kite, and perplex he does not go home with a the older brother who led the way to the hillside where the fairest wild the bright side of his character to ories will never grow less bright or home with a cheerful face that indim with age.

There should be no day in our lives that did not record some act of kindness, some help held out to the needy. One self-denying act or some kind word, or a pleasant glance, has

attention to what the world calls little The glory and charm of womanhood and success in life.

Let our homes be places of love joy and brightest sunshine, places of enduring love that out lasts the wedding day, and which produces a life of one long unbroken honeymoon, the molding place of character, a place where the child breathes an atmos shere perfumed by the choicest flow ers of heaven, where it finds the greatest earthly security in mother's loving, fostering care.

How often is a fine nature warped, a really good disposition spoiled by the omission of a few timely words of encouragement. A child receiving nothing but blame and constant scoldvourselves and think of some one else ing, in time becomes deaf to correction, sullen and defiant, and in the end one of those children who neither hears nor heeds. On the other hand friend; dry the tears of a lonely a child that is occasionally encourage ed, is proud of pleasing another, concouraged washerwoman; speak with sequently is pleased with himself and a voice which shames the whine and urged to renew exertions to gain a repetition of that praise so dear to the human heart, be that heart young

KENTUCKY STATE NOTES. Items Gathered From Over The State.

Frankfort.-Dr. A. J. Payne, government sheep inspector, announced that the live stock sanitary board had amended the rules providing that sheep may be shipped into Kentucky for exhibit at the state fair without dipping. They will be under the supervision of government inspectors, and will be kept in stock pens separate and apart from Kentucky sheep. As a result there will be no danger from infection of scabbies to Kentucky sheep exhibitors.

"Back to the Farm."

Strikingly illustrative of the argument that "the back to the farm" movement should be inaugurated, were statistics made public by the census bureau indicating that during the last ten years the percentage of increase in number of farms has fallen far behind that of the increase in population. Not since 1850 has the percentage of increase been so small.

According to the census bureau, during the ten-year period, beginning in 1900, the population of the nation increased 21 per cent. During the same decade the number of farms increased from 5,737,372 to 6,340,357, only 10.5 per cent.

Most remarkable, however, was the showing of the increase in the value of the farms. Farm land, exclusive of farm buildings, was valued at \$13,-058,008,000 in 1900. In 1910 it was worth \$28,286,770,000, an advance of 117 per cent. The size of farms has increased, according to returns.

A big advance was noted in the value of farm buildings and implements. Hired labor in 1910 absorbed \$345,612,000, an increase of 80 per cent over 1900. Sixty-six per cent of all farms were reported "free of debt."

Junior Order at Covington for Next

Convention. Officers for the Junior Order of American Mechanics of Kentucky for the ensuing year were elected: Harvey Mitchell, Heart, councilor; Omer Stubbs, Ludlow, vice councilor; L. W. Philips, Covington, treasurer; R. W. Harbin, London, conductor; Thomas Boone, Winchester, warden; A. H. Glore, Dayton, inside sentinel; J. D. Hunter, Cannell City, chaplain. The next meeting will be held at Covington in September, 1912. The most important action taken by the grand council was the determination to select a state organizer, to receive a salary of \$2,000, and will be elected by the five most important state officers.

The state railroad commission certified to the claim of the Vanceburg & Stouts Lane Turnpike against C. & O. Railroad Co., and ordered the railroad company to pay its pro rata of taxes due for the maintenance of the turnpike. The case was an appeal from Lewis county. The railroad company refused payment of taxes, alleging that the turnpike was a private road and not a public thoroughfare.

The County Clerks' association of Kentucky held their annual meeting here and elected the following officers: Crawford Lee, Frankfort, president; W. T. Mills, Madisonville, secretary; S. T. Breathitt, Newcas treasurer.

The address of welcome was delivered by Attorney Leslie Morris, and the response was made by Gus G. Singleton, of Paducah.

State Inspector and Examiner Mc-Kensie R. Todd delivered addresses on the subject of "Uniform System of Bookkeeping for All Counties," and urged the association to recommend to the legislature that the system be adopted. The recapitulation of assubject under discussion.

Scottsville.-Fire of unknown origin destroyed four business houses, three dwellings, the Presbyterian church the telephone exchange and the Carver hotel. The fire started in Garrison's grocery store, and fanned by a brisk wind, could not be controlled until it burned out an entire block.

Kentucky marksmen who composed the state rifle team which was in the national match at Camp Perry, Ohio, have returned home much disappoint ed because they did not finish better They would have finished well up with the others but for the fact that they were penalized a large number of points because their marker, who was to be in the rifle pits, failed to report for duty on the day that the team shot.

Just after winning the last ring at the Capital fair with his favorite saddle horse, Russell Railey, one of the best-known horsemen in Kentucky. dropped dead on the street here. As he rode from the ring after winning the blue tie with Golden Glow, Mr. Railey remarked to one of his friends: . hope I meet Golden Glow in heav-

en." In twenty minutes after he made this remark he was dead.

Greenville.-Two men entered the store of W. A. Young and took \$58 and a pistol.

NEW BUSINESS VENTURE

Wood Yard Will be Opened in West Hickan.

J. S. Mosier has reached the conclusion that a good wood yard in Hickan would be a paying investment and will establish such a business in West Hickman next week.

The location of this concern will be west of the C. M. & G. railroad, behind the government levee. He will have his wood all shipped in over the new railroad.

Past experience teaches us that Hickman needs a wood yard. In winter it is nothing uncommon to experience a wood famine, and the new yard should prove a boom in this re-The following appraised bills were spect as well as a good business proposition for Mr. Mosier.

Every wife should be a helpmate to her husband. For instance, if you have the pleasure of a large washing before you and he has the laborious The will of J. D. Webster was filed task of going to the city, or taking a trip through the country, change work with him, let him help you wash in the forenoon and you help him ride in the afternoon. A good wife will deny herself to entertain her husband, especially on wash day. But some men will say, "When I come down to that I'll hire it done." We find no fault with hiring it done, but as to coming down to help a woman, my dear sir, who created you so far above a woman that you have to condescent to come down? We know the Bible says that "the husband shall be the head of the household," but it also says that "the wife shall be a crown to him," and you know the crown is a little higher and just above the head. Such being the case come up, gentlemen, on a level with your wives and assist in the home whenever you can do so withimportant duties.

Prescriptions and Drugs...

Our aim is to serve you earnestly and honestly and to set before you the best goods-of quality above criticism-with no exageration of values, no promise without performance both in the prescription and drug department.

This is a drug store—you'll find here a most complete stock of the things every legitimate drug store is expected to have. We concentrate on drugs, medicines and drug sundries, that's why we can serve you best.

We invite your patronage and confidence.

September Term Convenes Here Next Monday.

Following is the docket for the September term of Fulton Circuit Court which convenes at the Court House in Hickman Monday.

It is probable that Judge Bugg will preside as he is presiding at Wickliffe this week.

In the Commonwealth docket there are 45, cases that the sheriff has not been able to find and which we do not publish.

The jury list was drawn last week and the sheriff no doubt has made all the summonses by this time.

Judge F. S. Moore returned Friday night from Louisville, where he has been in the hospital for the past six weeks. The Judge says Hickman looks good to him. We are glad to

SENTENCED TO PEN. Five Livingston County Riders Will Pay For Fun.

For the second time since the tobacco troubles started nine years ago convictions have been secured in the Livingston circuit court against five framers charged with "banding, conferedating and conspiring together to injure the property or body of anoth The alleged night riders are Woodson, John, George and Roy Crawford, all brothers, and Jewell Robinson. The five were accused o destroying the home of Bonn's Wright about eight miles form Pa ducah, on the night of March 29, 1916 Previously Wright's barn had been burned and he had been warned to leave the state

The five men denied the charge from the first. Attempts were made to establish alibis for them, but the only impression these made on the jury was that sentence was held to the minimum of one year.

The case was bitterly fought from beginning to end. A great deal of in terest had been aroused over the trial and other convictions are expected to grow out of the result

leged pight rider occurred when Dr Champion was sent to the peniter tiary for one year from that county

A new trial was asked for and an appeal taken if the motion is over ruled. These cases are looked upon somewhat as test cases

Oh, Bill=

Those Pants you've been thinking about---they're here. A swell line, too.

Reasonably priced. Sizes? Most any old size you can call tor.

A handsome lot of patterns, too. You should see them.

Possibly you need an extra pair---just as good as wheat in the mill---you will need them soon. Don't forget the place.

BRADLEY & PARHAM

"Are you folks going to be all day with that prescription?" demanded a man who had been waiting just ten minutes in Helm & Ellison's "The last place I had it filled it took just five minutes. Guess you don't know your business?'

We get that once in a while. It is the discourteous penalty of taking pains, of serving well.

The man's prescription was an eye ointment that had to be triprated. The medicinal part of it was a poison, if improperly used, but a great healing agent if properly worked up into the ointment and evenly distributed. Don't you see how the whole prescription depended on the faithfulness and skill of the pharmacist who had it in hand?

Sure it could be carelessly done in that time, and perhaps the patient would pay for the haste with sore eyes for years to come.

So we took our time, and in the preparation of medicines we always take enough time to do the work properly,

Which do you prefer? The druggist who gets a reputation of beag able to turn out a large number of prescriptions per hour, or a drugist who has no set time allotted for any particular prescription, but takes enough hours or minutes to do the work WELL?

We don't strive for speed records in Hlem & Ellison's prescription departments.

We are after accuracy.

May we have your prescription business?

NEGRO KILLED On Boat Above Town. Body Thrown Overboard.

As the steamer, Stacker Lee landed Thursday evening at the wharf at 5 o'clock, before lowering her stage plank they asked for officers of the law, and turned over a negro roustabout to Policeman Bun Hackett.

As the packet turned the bend just bove Hickman, five minutes before blowing her whistle for the landing quarrel arose over a crap game on the lower deck, which resulted in the n the roustabout cutting the throat of another negro in a crap game, striking him on the head with a beer bottle and pushing him overboard into river. The negro killed was a cotton picker on his way south. A white man, a traveling man, was also n the game, but his name was not arned. His clothes was well spated with blood from the fracas.

Deputy Sheriff Hall, of Tiptonville, was on the boat, arrested the begro roustabout and had to beat him almost insensible to subdue him The egro was taken into custody and put in jail here to await the action of the grand jury. There is a question about where the negro will be tried for the murder whether in Missouri or Kentucky, as it is not known here on which side of the river they were Kentucky side:

body thrown overboard, but no trace the Mengel Box Co.

of it was seen up to this time.

She-How long did it take you to learn how to make love? He-Well I suffered almost constantly for five years.

AVIATORS CCMING

Will Pass Hickman on Great River Event.

A prize aeroplane flight is being arranged between the cities along the Mississippi river, and its successful consummation is already assured, as \$13000 of the \$20000 has already been subscribed.

The plan is to give the \$20,000 to the aviator who makes the best time from Minneapolis to New Orleans, the course being over the river the entire distance. This, as a matter of fact, puts Hickman on the route of the big event.

The principal object of the flight is to secure publicity for the Mississippi valley cities and also to boost the deep waterways projects. The convention will be held in Chicago in October, and if possible the start will be made either before or while the con-

Aviators are enthusiastic over the chance to win the glory-and incidentally the money-which will be awarded to the winner.

Whether the event will be in the nature of a race with several aviators competing or simply as a single flight has not yet been decided upon. If a race, it is certain that such airmen as Atwood, Hamilton and Ward of the Buress-Wright team; Beachey, Witmer, Ely of the Curtiss team; Mc-Curdy, who has a powerful new speed machine, and probably Claude Graham-White, Earl L. Ovington and Tom Sopwith would enter.

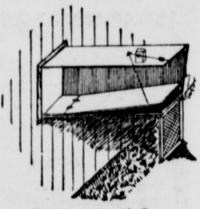

This does not mean that all of the contestants would fly biplanes, however, as Earl L. Ovington would use his Bleriot in preference to his Curtiss on such a long jaunt. Then, too, NEW LAKE HOTEL White is using a Nieupert monoplane and Arthur Stone of the Queen Com pany flying a copy of the Bleriot cross chanel machine used by the late John B. Moisant. Courier readers will be given the exact date and final arrangemnets in due time.

Mrs. J. R. Brown, Miss Annie Lee and children, Mrs. E. E. Reeves and little son, Russell Johnson, Dr. Hub- and he tells us that he has built a bard and family, Misses Nell and Lucile Bondurant attended the fair boats and decoys in the hunting seain Union City last week.

CAN TURN THEMSELVES OUT

Automatic Door Invented for Release ing Flock Where Poultrymen Forgets It on Warm Day.

The accompanying drawing will need but little explanation to active and up-to-date poultrymen. It is needless to say "the early bird catches the worm." We all know that when the fowls are confined any considerable length of time beyond the time of regular releasing they become much worried, which unfits them for best A frightened or Farmers' Review. worried hen soon loses interest in egg production and it requires con-

her in proper shape again. Now for fear that you forget to turn the flock from their roosting quarters some warm day, make one of these automatio release doors.

This arrangement is attached to the outside of the building ordinarily where the small drop door is located. This release door should be covered with half-inch mesh wire netting. This will show the hens the light, and they will be induced to reach it. In so doing they will walk over the false bottom, the one to which the trigger wire is attached and her weight will raise the hook that keeps the door in place, the door will swing open and all the flock will be released

Prohibition Leaders Almost Concede Defeat.

WETS WIN IN MAINE.

Portland, Me., Sept. 12 .- Maine, which for four years more than half a century has been the rock-ribbed stronghold of prohibition, voted to decide whether its .constitutional edict, made in 1884, prohibiting the manufacture and sale of intoxicating liquors, shall be repealed.

From 10 of the 16 counties of the state came returns on early voting, indicating the anti-prohibitionists will history. From the early vote and from vir-

tual admissions by even Prohibitionist leaders and newspapers the repeal of the prohibitory amendment by counties was predicted as follows: Penobscot, Waldo, Kenebec, Androscoggin, Sagadahoc, Knox, York, Cumberland, Franklin and Hancock In the early hours the much-mooted "silent vote" failed to materialize. Leaders on both sides, however, say much depends on this "silent

By the same indications, the Prohibitionists expected to carry the following counties: Washington Aroostook, Piscataquis, Somerset and Oxford.

Three Questions Voted On. Three questions are being decided

by Maine: Shall constitution be amended to abrogate and annul twenty-sixth amendment, prohibiting manufacture fore exhibited in Amrica. and sale of intoxicating liquors? Shall constitution be amended to

provide that "Augusta is hereby declared to be seat of government of the State?"

Shall all nominations of candidates for state and county offices, including United States senator, congressman and members of state legislature hereafter be made at and by primary elections?

CROPS HIGHEST LAST YEAR Hickman.

Department -of Agriculture Figures Show Products at Greatest Level -Few Show Lower Prices.

Washington, Sept. 12.-Comparison of prices paid to farmers in the Unitedw States for farm products, as anounced by the department of agri culture, shows that on September 1 potatoes averaged 56.0 per cent higher than on September 1 last year, barley 34.6 per cent higher, hay 23.1 per cent higher, oats, 5.2 per cent higher, rye 3.8 per cent higher, buckwheat 1.9 per cent higher, corn 0.6 per cent lower, chickens, 6.7 per cent lower, eggs 10.3 per cent lower, wheat 11.5 per cent lower, and cotton 18.1 per cent lower. Other vegetables were proportionately higher.

C. S. MELLEN TO RETIRE

Will Leave Presidency of New York, New Haven and Hartford Rallway.

CANAL GETS BIGGEST GUN. Monster Will Fire 2000 Pound Shot Twenty Miles.

Washington, Sept. 12.-Brig. Gen. William Crozier, chief of ordnance, has under consideration plans for the construction of a carriage for the great 16-inch gun which will be made the keystone of the Panama fortifications. This gun weighs 130 tons.

Consequently its carriages will be one of the largest pieces of work ever undertaken by the ordnance department of the army.

It will be constructed on larger lines than any gun carriage ever constructed, and it is probable a year and a half to two years will be required to complete it. It is designed to have a range of ten miles and ordnance experts estimate that the gun will throw a projectile twenty miles, but as it will be impossible, with the most powerful glasses, to see this distance, it will not be necessary to provide for such a range.

Even if it were possible to twenty miles it would be impossible to control the fire of the gun at any such range.

The gun may have a power loader with some new appliances for the immense projectiles it will carry. These will weigh about 2,400 pounds each, and it will cost the government about acts are given by illustrious European \$1,000 every time the big gun is fired.

SUSPECT CHILD'S FATHER

Police Will Recall Parent of Slain Annie Lemberger for Requestioning.

Madison, Wis., Sept. 12.-Mystery deepened in the kidnaping and mur der of 7-year-old Annie Lemberger, whose body was found by the police. No clew to the slayer has been found and the feeling in the foreign section of the city has been aroused to a high pitch.

The police said that should anyone be arrested they fear a mob would be formed and a lynching started before the prisoner could be tried.

One of the suprises was the announcement that the father of the child is to be recalled before the police inquisition and closely ques tioned regarding a discrepancy in his statements. The autopsy showed the child had not been mistreated and the theory is that the murder was committed by a degenerate.

CAN TALK OVER MOUNTAIN

Englishman's Wireless Telephone Is Watched With Interest by Government.

London, Sept. 12 .- The government is watching with interest the experiments with the aerophone invented by Matthews, an electrician of national repute. It is held that the voice may be transmitted for a long distance not only through the air, but through or over mountains and other obstacles.

The invention is a wireless con trivance, which is portable. It produces vibrations of such frequency that they are practically continuous. It is said that conversations have en carried on clearly, at a distance of five and one-half miles.

Matthews will next try to talk 25 mfles

Editor Slays Rival Editor.

Havana, Sept. 12 .- Ernesto Mendoza, editor of El Combat, made good the name of his paper by killing Rudolfo Mernandez, editor of the Guines de Rumbox. Both papers are published weekly at Guines, forty miles from Havana. The men met in a street and Fernandez attacked Mendoza with a cane. The latter shot Fernandez. The trouble arose over a newspaper controversy.

The bride is a daughter of Mr. and Mrs. J. P. Cussick, of this city, and a charming young lady. She was born and reared here and has a host of

Mr. Sanger is a son of J. Sanger, one of the most highly respected families in the state. He is a prosperous young farmer, possessing many sterling qualities, and a fine fellow.

The happy pair will make their home on the farm, near Hickman, where Mr. Sanger has just finished building a pretty little home.

We join their many friends in wishing them a long and happy life.

CURIOUS DITS OF HISTORY

A GREAT CORSICAN PAT-RIOT.

By A. W. MACY. Napoleon was not the only great man born on the island of Corsica. Pasquale de Parti. one of the great patriots of history, was a Corsican. For more than two and a half centuries Corsica had been under the control of the Genoese. In "55, under the leadership of Paoil, sho threw off the Genoan yoke, For fourteen years thereafter Paoli administered the affairs of the Island, and did it wisnly and well. He brought about many reforms, and encouraged commerce and the arts. in 1769, having "purchased" the island from the Genoese, France landed an army of 22,000 soldlers. Paoli with a few thousand Corsicans met them boldly, but was hadly defeated. With his little army reduced to 537 m n and surrounded by 4,000 French, he cut his way out and escaped to England. The French conquered the Island, but at a cost of more than 10,000 men, nearly half of whom were killed. Paoli remained in England twenty years. At the outbreak of the French | volution he returned to Corsica and became military governor. He soon broke with the French, however, and returned to England, where he died in 1807. Eighty years afterward his ashes were removed to Corelca and retombed with great honors. Lamartine,

(Copyright, 1311, by Joseph ... Bowles.)

the eminent French writer, said: "Corsica remains still in the

place of a mere province, but

Paoli assumes his place among

the ranks of great men."

sary to produce a certain quantity of good of any kind whatever. If you want knowledge, you must toll for it; if food, you must toil for it; and if pleasure, you must toil for it. —Ruskin.

Quick Breads.

If there is one thing the normal man dotes on it is hot breads of all kinds, and it is hard for him to realize that hot bread at every meal is not good for the stomach.

Cereal Breads.-Gems and breads made from cereals are very satisfying and nutritious. They are not expensive and with or without fruit and nuts are good foods.

Corn Bread.-Take a pint of sour milk, one tablespoonful of melted lard, one egg well beaten, one teaspoonful of salt, one teaspoonful of soda and cornmeal enough to make a drop batter. Pour into a greased dripping pan and bake for half an hour. This same mixture may be used in muffin pans. A mixture of equal parts of corn meal and flour is better liked by many. When using sweet milk use two teaspoonfuls of baking powder in place of the soda.

Maryland Biscuit.-Sift half a teaspoonful of salt with a quart of flour, Every Sunday 11 a. m. and 7:30 p. m. then cut into it two tablespoonfuls of butter. Make a stiff dough with a cup of ice water; turn the mixture out on the molding board and beat with the rolling pin for 20 minutes, turning frequently; cut into rounds and bake in a moderate oven. The pounding of the dough incloses air in it and makes it light when expanded by the heat

Cream Scones .- Mix and sift together two cups of flour and two teaspoonfuis of baking powder, two teaspoonfuls of sugar and half a teaspoonful of salt. Rub into the mixture four tablespoonfuls of butter; add two wellbeaten eggs and a third of a cup of cream. Toss on a floured board and roll to three-fourths of an inch in thickness. Cut in squares, brush with the white of egg, sprinkle with sugar

and bake in a hot oven 15 minutes. Hominy Gems.-Add a fourth cup of hominy to a half cup of boiling water and stand until the water is absorbed. Add a cup of hot milk, a half teaspoonful of salt to s cup of cornmeal, three tablespoonfuls of butter and three of sugar. Combine mixtures, cool, add two eggs and the two tea spoonfuls of baking powder sifted in. Beat well and bake in buttered gem pans.

Have you noticed how many fellows are predicting an early killing frost? Don't pay any attention to them, they do the same every summer.

The Courier's Weekly Sermon

GOD'S KINGDOM IS AT HAND

Messiah's Reign Will, However, Be Introduced by a Great Time of Trouble.

Address to International Bible Students Convention.

Mt. Lake Park, Md., Sept. 10th .-Pastor Russell was the principal speaker today before the International Bible Students Association Convention which has been in session here for more than week, and has been addressed by many able Bible

scholars. Pastor Russell took for his text, Isalah ii, 2, but included in his discourse the remainder of the chapter.

He declared that in the symbolic anguage of the Bible, the Mountain of the Lord's House means the Kingdom of the Lord, ruled over by Mes siah and His House, the Church. The promise of the text, that some day Messiah will reign over all the kingdoms of earth, the speaker believes will soon be realized. It is for this Kingdom that God's people have for years been praying, "Thy Kingdom come. Thy will be done on earth, as it is done in heaven."

None of the kingdoms of this world ire Messiah's kingdoms, declared Pas-None of them bear the for Russell. armarks of Messiah's Kingdom, outfined in the Bible. They are the kingdoms of this world, ruled by the rince of this world, "who now worketh in the hearts of the children of isobedience." Nevertheless, Messiah's Kingdom will be inaugurated; Satan's Empire or Mountain, deceiving manand through ignorance and superstion, will be brought to an end. Satan vill be bound for a thousand years, hile Messiah's Kingdom, equally invisible, will dominate the world, chasng away ignorance and superstition and filling the whole world with the knowledge of the glory of the Lord.

The Kingdom Israelitish.

The speaker declared that the Bible everywhere shows that Messiah's invisible Kingdom will be represented amongst mankind by princely characters of the Jewish race, who will be esurrected to human perfection for this very work. Instead of Abraham, Isanc and Jacob and the Prophets being any longer the Fathers, they will be the children-the first-born children f Messian, in the full perfection of human nature. The Church, the Bride of Christ, is not, declared the Pastor, Scripturally known as children of Mes siah In perfect accord is the text, 'One is your Father, even God;" and again. "The God and Father of our Lord Jesus Christ who bath begotten

DAUGHTER

By Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"I send you herewith the picture of my fifteen year old daughter Alice, who

was restored to health by Lydia E. Pinkham's Vegetable Compound. She was pale, with dark circles under her eyes, weak and irri-table. Two different doctors treated her and called it Green Sickness, but she grew worse all the time, Lydia E. Pink-

ham's Vegetable Compound was recommended, and after taking three bot-tles she has regained her health, thanks

Hundreds of such letters from moth ers expressing their gratitude for what Lydia E. Pirkham's Vegetable Com-pound has accomplished for them have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice. Girls who are troubled with painful or irregular periods, backache, head-ache, dragging-down sensations, faint-ing spells or indigestion, should take immediate action and be restored to health by Lydia E. Pinkham's Vege-table Compound. Thousands have been restored to health by its use.

Write to Mrs. Pinkham, Lynn Mass., for advice, free.

us" (1 Peter i. 3).

Crawling Into the Rocks.

Discoursing on other features of the hapter, Pastor Russell called attention to the fact that the words declare a judgment of the nations. In the time of trouble which will then overthrow Society, financial, political, social and religious, the nations will be so chastened by war that thereafter Their swords will be converted into plowshares and their spears into pruning hooks," and the study of war will be at an end. Pastor Russell surmised that this great time of trouble will result from anarchism, which he believes will invade the armies of the world and turn them against the very powers which organized and armed

All were cautioned to avoid, so far s possible, having any sympathy with the anarchistic spirit, in harmony with God's Message to His people, "Wait ye upon Me, saith the Lord." In other words, do not attempt by force to right present wrongs; rather submit and eave the entire matter in God's hands The Prophet Isalah, said the Pastor. alls attention to the idolatry of wealth -silver and gold-and indicates that uch idolatry will entirely pass away

n the great time of trouble with which Messiah's reign of righteousness will e inaugurated-"He must reign until He bath put all enemies under His feet." In the shakings of the great time of trouble, many people will be in perplexity, and will crawl into the aves and dens of the earth, and the lefts of the rocks. Paster Russell noted Revelation vi. 15-17. He in erpreted the dens and caves and rocks signify political and social fast sses-Insurance and Combines. Illared that many are already in feaad are biding themselves, as described this Scripture, although the great torm has not yet broken, and will ot break out in its severity for a fev rears yet-probably not before 1915.

The End Will Be Glorious.

In the end it will be seen that the Divine permission of the reign of siand death in the earth, instead of be ing a blot upon Divine character and a demonstration of Divine unwisdon and incompetency, will reveal the great Creator to His subjects, his chil-

dren, as nothing else could have done. The speaker closed with an exhorta tion that his hearers remember th words of Jesus, "Watch ye, that ye may be accounted worthy to escape all these things coming upon the world and to stand before the Son of Man.'

THE TIME TEST.

Hickman People Cannot Demand Stronger Proof of Merit.

The test of time is what tells the tale. The public is quick to discover misrepresentations and merit alone will stand the test of time. Long ago many grateful people in this locality publicly endorsed Doan's Kidney Pills; they do so still. Would these statements be confirmed if Doan's Kidney Pills did not possess lasting merit? The following testimony should convince the most skeptical Hickman reader.

Mrs. George Combs, Cedar st., Fulton Ky., says: "For some time I suffered from backache and weakness across my loins. Any over exertion aggravated my trouble and at times I could hardly work. There were other annoyances due to weak kidneys. A member of my family found wonderful benefit from Doan's Kidney Pills and induced me to try them. He procured a box for me and I began their use. In a few days I noticed a change for the better and after I had finished the contents of the box the backache and all other distressing symptoms of my trouble had com-(From statepletely disappeared." mennt given in 1903.)

A PERMANENT CURE

On May 15, 1907, Mrs. Combs confirmed the above statement, saying: 'I have never had occasion to use Doan's Kidney Pills since I gave a to your medicine. I can recommend it for all female troubles."—Mrs. L. A. CORKRAN, 1103 Rutland Street, Baltimore, Md. public statement, recommending them in May, 1903. I advise anyone sufache to give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y. sole agents for the United States. Remember the name-Doan's-and

take no other.
